SIGNATURE KEYNOTE

Leading Through Change

What you don't reinvent, you repeat. From self leadership to leading others through change.

What the keynote covers

Mindset
Break through the stories that hold you back.

Resilience
Back yourself before you see the results, and come back stronger from setbacks.

Leadership
Understand what really drives people, and lead them better.

THREE EDITIONS OF THE TALK

01 **Leadership Edition**

The full keynote, for leaders who set the pattern their teams repeat.

Ideal for leadership conferences, senior offsites, manager programmes

02 **Change Edition**

Change You Didn't Choose: the human side of restructures, mergers, new strategy and new targets.

Ideal for transformation programmes, all hands, associations

03 **Story Edition**

From the Streets to Success: the story of overcoming adversity, told to move the room and send people back stronger.

Ideal for conference openers, awards nights, after dinner speeches, sales kick-offs

WHY IT LANDS

Lived proof: a stammer, homelessness at eighteen and 75+ rejections, then businesses built from nothing. Tools people use the next day.
